TESDA CIRCULAR

SUBJECT: Approved TESDA Board Resolutions No. 2018-13 to 2018-20		Page 1 of 3 pages Number 50 series of 2018
Date Issued: July 12, 2018	**Effectivity:** As indicated	**Supersedes:**

In line with the agency's continuing effort to improve certain policies and procedures, we are providing you with the resolutions approved by the TESDA Board during the 103rd TESDA Board Meeting held on 27 June 2018:

1. **BR No. 2018-13** **"Approving and Promulgating the Amended Training Regulations for Electric Power Distribution Line Construction NC II"**

2. **BR No. 2018-14** **"Approving and Promulgating the Training Regulations for Electric Power Distribution Operation and Maintenance NC III and NC IV"**

3. **BR No. 2018-15** **"Approving the Allocation of Funds from the TESDA Development Fund for TVET Research for FY 2018-2022"**

4. **BR No. 2018-16** **"Authorizing the Director General of Technical Education and Skills Development Authority to Accept and Sign the Deed of Donation Involving a One Thousand One (1,001) Square Meters Lot with the City Government of Oroquieta, Misamis Occidental Duly Represented by Jason P. Almonte, City Mayor"**

5. **BR No. 2018-17** **"Authorizing the Director General of TESDA to Accept and Sign the Deed of Donation Involving Two Thousand Nine Hundred Sixty Eight (2,968) Square Meters Lot by Municipal Government of Plaridel, Misamis Occidental Duly Represented by Engr. Diego C. Ty, Municipal Mayor"**

TESDA CIRCULAR

Resolution No. 2018-13
(Page 1 of 16 pages)

APPROVING AND PROMULGATING THE AMENDED TRAINING REGULATIONS FOR ELECTRIC POWER DISTRIBUTION LINE CONSTRUCTION NC II

WHEREAS, TESDA Board Resolution No. 2010-15 was issued "Approving and promulgating the Training Regulations for Electric Power Distribution Line Construction NC II last 25 November 2010 during the 76th TESDA Board Meeting;

WHEREAS, it is the policy of TESDA to review after three (3) years any Training Regulations (TRs) promulgated by the TESDA Board;

WHEREAS, the **National Electrification Administration (NEA)** is a government agency created with a mandate to provide financial, institutional and technical support to Electric Cooperatives (ECs) in the country and other partners in the rural electrification program;

WHEREAS, NEA has a Corporate Responsibility Program that includes Competency Upgrading for Line Workers and Barangay Electricians undertaking rural electrification;

WHEREAS, the National Electrification Administration (NEA) initiated the review of the Training Regulations (TRs) for Electric Power Distribution Line Construction NC II in 2017 to align its content with the most recent global standards;

WHEREAS, the scope of work of the amended TRs for Electric Power Distribution Line Construction NC II involves work on non-energized lines, particularly construction'/extension of new electric power distribution lines;

WHEREAS, industry experts and partners, headed by the Deputy Administrator for Technical Services of National Electrification Administration (NEA), with the technical assistance of the Qualifications and Standards Office (QSO) of TESDA have reviewed and endorsed the same for TESDA Board Approval;

WHEREAS, during the 32nd Joint Standards-Setting and Systems Development (SSSD) and Finance Committee Meeting held on 21 June 2018, the Committee deliberated upon and favorably recommended the amendments of the abovementioned Training Regulations for Electric Power Distribution Line Construction NC II as follows:

APPROVING AND PROMULGATING THE AMENDED TRAINING REGULATIONS FOR ELECTRIC POWER DISTRIBUTION LINE CONSTRUCTION NC II

Existing Promulgated Training Regulations (Board Resolution No. 2010-15)	**Amendments**
Electric Power Distribution Line Construction NC II	**Electric Power Distribution Line Construction NC II**
Job Title	
• Electric Power Distribution Line Workers	• Electric Power Distribution Line Worker • Construction Line Worker (Off-line)
Section 1 – Definition of the Qualification	
The **Electric Power Distribution Line Construction NC II** Qualification consists of competencies that a person must possess to erect distribution line poles, climb pole and install pole assembly, conductors, line equipment and devices as well as to install consumer service connection facility. Line construction involves work on non-energized lines, particularly construction/ extension of new electric power distribution lines.	The **Electric Power Distribution Line Construction NC II** Qualification consists of competencies that a person must possess to erect electric distribution pole, climb pole and install pole assembly and conductors, install single-phase distribution line equipment and devices as well as to install single-phase consumer service connection facility. Line construction involves work on non-energized lines, particularly construction/ extension of new electric power distribution lines.
Section 2 – Units of Competency	
Basic Competencies • Participate in workplace communication • Work in team environment • Practice career professionalism • Practice occupational health and safety procedures	**Basic Competencies** • Participate in workplace communication • Work in team environment • Practice career professionalism • Practice occupational health and safety procedures • Address general workplace problems • Exercise sustainable development in the workplace

Existing Promulgated Training Regulations (Board Resolution No. 2010-15)	Amendments
3.2 Training Delivery	
The delivery of training should adhere to the design of the curriculum. Delivery should be guided by the 10 basic principles of the competency-based TVET. • The training is based on curriculum developed from the competency standards; • Learning is modular in its structure; • Training delivery is individualized and self-paced; • Training is based on work that must be performed; • Training materials are directly related to the competency standards and the curriculum modules; • Assessment is based in the collection of evidence of the performance of work to the industry required standard; • Training is based both on and off-the-job components; • Allows for recognition of prior learning (RPL) or current competencies; • Training allows for multiple entry and exit; and • Approved training programs are nationally accredited. The competency-based TVET system recognizes various types of delivery modes, both on and off-the-job as long as the learning is driven by the competency standards specified by the industry. The following training modalities	*AS PER NEW TR FRAMEWORK (TESDA BR 2014-04)* **2.** The following training modalities and their variations/components may be adopted singly or in combination with other modalities when designing and delivering training programs: **2.1 Institution- Based:** ▪ Dual Training System (DTS)/Dualized Training Program (DTP) which contain both in-school and in-industry training or fieldwork components. Details can be referred to the Implementing Rules and Regulations of the DTS Law and the TESDA Guidelines on the DTP; ▪ Distance learning is a formal education process in which majority of the instruction occurs when the students and instructor are not in the same place. Distance learning may employ correspondence study, audio, video, computer technologies or other modern technology that can be used to facilitate learning and formal and non-formal training. Specific guidelines on this mode shall be issued by the TESDA Secretariat. ▪ The traditional classroom-based or in-center instruction may be enhanced through use of learner-centered methods as well as laboratory or field-work components.

APPROVING AND PROMULGATING THE AMENDED TRAINING REGULATIONS FOR ELECTRIC POWER DISTRIBUTION LINE CONSTRUCTION NC II

Existing Promulgated Training Regulations (Board Resolution No. 2010-15)	Amendments
3.2 Training Delivery	
may be adopted when designing training programs: • The dualized mode of training delivery is preferred and recommended. Thus programs would contain both in-school and in-industry training or fieldwork components. Details can be referred to the Dual Training System (DTS) Implementing Rules and Regulations. • Modular/self-paced learning is a competency-based training modality wherein the trainee is allowed to progress at his own pace. The trainer only facilitates the training delivery. • Peer teaching/mentoring is a training modality wherein fast learners are given the opportunity to assist the slow learners. • Supervised industry training or on-the-job training is an approach in training designed to enhance the knowledge and skills of the trainee through actual experience in the workplace to acquire a specific competencies prescribed in the training regulations. • Distance learning is a formal education process in which majority of the instruction occurs when the students and instructors are not in the same place. Distance learning may employ correspondence study, or audio, video or computer technologies.	**2.2 Enterprise-Based:** ▪ Formal Apprenticeship – Training within employment involving a contract between an apprentice and an enterprise on an approved apprenticeable occupation. ▪ Informal Apprenticeship - is based on a training (and working) agreement between an apprentice and a master craftsperson wherein the agreement may be written or oral and the master craftsperson commits to training the apprentice in all the skills relevant to his or her trade over a significant period of time, usually between one and four years, while the apprentice commits to contributing productively to the work of the business. Training is integrated into the production process and apprentices learn by working alongside the experienced craftsperson. ▪ Enterprise-based Training- where training is implemented within the company in accordance with the requirements of the specific company. Specific guidelines on this mode shall be issued by the TESDA Secretariat. **2.3 Community-Based:** ▪ Community-Based Training – short term programs conducted by non-government organizations (NGOs), LGUs, training centers and other TVET providers which are intended to address the specific needs of a

3.2 Training Delivery	
	community. Such programs can be conducted in informal settings such as barangay hall, basketball courts, etc. These programs can also be mobile training program (MTP).
3.3 Trainee Entry Requirements	
The trainees who wish to enter the course should possess the following requirements: ▪ At least high school graduate or equivalent ▪ Can communicate in oral and written language ▪ Must be physically and mentally fit to undergo training e.g. *no fear of working in height* ▪ At least 5'4" in height ▪ 18-25 years old This list does not include specific institutional requirements such as educational attainment, appropriate work experience, and others that may be required of the trainees by the school or training center delivering the TVET program.	Trainees or students should possess the following requirements: ▪ Must have completed at least 10 yrs. basic education or an alternative learning systems (ALS) certificate of completion with grade 10 equivalent holder ▪ Able to communicate both oral and/or written ▪ Must be physically fit to undergo training e.g. *no fear of working in height* This list does not include specific institutional requirements such as educational attainment, appropriate work experience, and others that may be required of the trainees by the school or training center delivering the TVET program.

3.4 List of Tools, Equipment and Materials

Recommended list of tools, equipment and materials for the training of **20 trainees** for Electric Power Distribution Line Construction NC II:

TOOLS	
QTY.	**DECRIPTION**
2 units	Ordinary shovel
2 units	Spoon shovel, 7 ft
2 units	Straight shovel, 7 ft.
2 units	Digging/tamping bar, 8', forge steel
4 units	Pole pike, assorted size
2 sets	Pole Jenny (salagunting), 14 ft.
2 sets	Pole Jenny (salagunting), 18 ft.
2 units	Butting board (1"x6"x7" wood or steel)
1 unit	Cant hook, 4", wooden handle
2 units	Bolt cutter, 24" & 36", steel handle
4 units	Auger bit, ¾" & 5/8"∅
2 units	Rachet, ½ ton
2 units	Cum-a-long (wire group)
1 unit	Conductor rack
1 unit	Transformer gin
2 – 25 meters	Bull line (3/4"∅ manila or polypropylene rope)
2 – 60 ft. length	Hand line (1/2"∅ rope)
4 pcs.	Dead end loop clamp
8 pcs.	Hot line clamp for 1/0 ACSR
2 units	Impact tool, power actuated
2 units	Pruning saw, diff. sizes

Resolution No. 2018-15
(Page **1** of **2** pages)

APPROVING THE ALLOCATION OF FUNDS FROM THE TESDA DEVELOPMENT FUND FOR TVET RESEARCH FOR FY 2018-2022

WHEREAS, the TESDA Board, during its 97th Board Meeting on 23 March 2017, approved Board Resolution No. 2017-21 titled "APPROVING THE AMENDMENT TO "BOARD RESOLUTION NO. 2016-13 APPROVING THE REVISED TESDA DEVELOPMENT FUND (TDF) OPERATIONAL GUIDELINES AND THE USE OF EARNINGS FROM TDF CONTRIBUTIONS FOR PURPOSES SPECIFIED BY THE BOARD" WHICH WILL INCLUDE TVET RESEARCHES AS ONE OF THE PURPOSES FOR THE USE OF THE TDF";

WHEREAS, TESDA Circular No. 48 s. 2017, or the Guidelines on the Implementation of the National Technical Education and Skills Development Research Agenda (NTRA) 2017-2022, provides the overall direction in the pursuit of research activities in support of the National Technical Education and Skills Development Plan 2018-2022;

WHEREAS, during the 2nd Joint TESDA Board Executive Committee-Finance Committee Meeting, the Members deliberated and endorsed the allocation of funds for the NTRA 2017-2022 to be sourced from the TESDA Development Fund;

NOW, THEREFORE, BE IT RESOLVED, AS IT IS HEREBY RESOLVED, that:

1. An amount of Ten Million Pesos (PHP 10,000,000.00) to be sourced from the TESDA Development Fund be allocated for the implementation of the NTRA 2017-2022, which shall be released to the TESDA Secretariat in the amount of Two Million Pesos (PHP 2,000,000.00) annually. The succeeding release of the fund shall be subject to the annual review of the TESDA Board based on the accomplishments, utilization and liquidation of funds. For 2018, an amount of One Million Pesos (PHP 1,000,000) shall be released to the TESDA Secretariat for the funding of TVET Research;

2. The fund shall be used for Technology Researches and Policy Researches based on procedures and guidelines established under the NTRA 2017-2022;

103rd TESDA BOARD MEETING
27 June 2018, Wednesday, 1:00 PM
7th Floor TESDA Board Room, Office of the Chair
Taguig, Metro Manila

Resolution No. 2018-20
(Page 1 of 3)

AUTHORIZING THE REGIONAL DIRECTOR OF TESDA REGION IX TO ENTER INTO A MEMORANDUM OF AGREEMENT (MOA) FOR AND IN BEHALF OF THE TESDA BOARD WITH DEPARTMENT OF PUBLIC WORKS AND HIGHWAYS COUNTERPART FOR THE RELEASE AND TRANSFER OF FUNDS IN THE AMOUNT OF FORTY MILLION PESOS (PHP40,000,000.00) FROM THE ACCOUNT OF TESDA REGION IX TO THAT OF THE DEPARTMENT OF PUBLIC WORKS AND HIGHWAYS REGION IX FOR THE CONSTRUCTION OF INNOVATION CENTER IN TESDA TECHNOLOGY INSTITUTION (TTI) UNDER THE REGULAR AGENCY FUND, FY 2018 GENERAL APPROPRIATIONS ACT, SPECIFIC BUDGETS OF NATIONAL GOVERNMENT AGENCIES, SUBJECT TO SUCH LIMITATIONS AS MAY BE PROVIDED BY LAW

WHEREAS, there is an existing appropriation in the amount of Forty Million Pesos (Php40,000,000.00) for the construction of Innovation Center in TESDA Technology Institution (TTI) in Region IX under the Regular Agency Fund, FY 2018 General Appropriations Act, RA 10924 Specific Budgets of National Government Agencies;

WHEREAS, TESDA does not have the proficiency or the capability to undertake this particular procurement;

WHEREAS, pursuant to Section 7.3.3 (a) of the 2016 Revised Implementing Rules and Regulations (IRR) of Republic Act No. 9184, in order to hasten project implementation, Procuring Entities which may not have the proficiency or capability to undertake a particular procurement, as determined by the Head of Procuring Entity concerned, may outsource the procurement tasks by requesting other GoP agencies to undertake such procurement for them, through the execution of a Memorandum of Agreement containing specific arrangements and stipulations in accordance with existing government budgeting, accounting and auditing rules;

WHEREAS, TESDA recognizes that DPWH Region IX has the administrative and technical capability to implement the proposed construction of Innovation Center in TESDA Technology Institution (TTI) in Region IX and in connection thereto the former sought the assistance of the latter for said purposes;
